

# CSC 495.002 – Homework#5: Paper Review

Dr. Özgür Kafalı  
North Carolina State University  
Department of Computer Science

Read the papers [Egelman and Peer, 2015] and [Kumaraguru and Cranor, 2005], and write a review by taking into account the following points:

- Summarize the privacy problem addressed. (1–2 sentences for each paper)
- What are the objectives and the research questions of the authors? (1–2 sentences for each paper)
- Summarize the proposed methodology. (2–3 sentences for each paper)
- What are the major results presented in the paper? (1–2 sentences for each paper)
- What are the limitations of the proposed approaches and the generalizability of the results? (2–3 sentences for each paper)
- How would you extend the work done by the authors? Here, state the parts you like/dislike about the papers and describe how you would improve/fix those. (3–4 sentences for each paper)

The deadline for this assignment is November 13th – 5PM. One page in total, Times New Roman 12 point, single column, single spaced. Use the Latex template provided for HW#2 as basis, and modify the sections appropriately.

## Papers to Read

[Egelman and Peer, 2015] Egelman, S. and Peer, E. (2015). The myth of the average user: Improving privacy and security systems through individualization. In *Proceedings of the 2015 New Security Paradigms Workshop*, pages 16–28.

[Kumaraguru and Cranor, 2005] Kumaraguru, P. and Cranor, L. (2005). Privacy in india: Attitudes and awareness. In *Proceedings of the International Workshop on Privacy Enhancing Technologies*, pages 243–258.
